Even though being the oldest book in the Bible, the forty-two chapters of Job offers a remarkable, behind-the-scene look at the

14

15

spiritual world. No other book from ancient cultures give a detailed

16

account of the workings, intrigues, and conflicts, all of which is

17

in the unseen world. With only eyes to see the physical realm, human beings are unable to appreciate the battle that takes place daily centered around them. The book of Job begins with Satan wagering

18

with God that Job will abandon God whenever he loses all that the wealthy man possess. Of course the Lord knows the heart of Job, and

19

challenges Satan to do his best to turn Job from the way of righteousness. Indeed, Job loses everything: children, livestock, and health. Nevertheless, even though he is bitter against his own life, he's never bitter towards God. Job realizes in the end that he is being

20

disciplined to endure hard times and to rely on the Lord God. Because he trusted God, Job receives back much more than what he had lost.

OVER

Many great writers such as Victor Hugo, Thomas Carlyle, and Lord Tennyson claims the book of Job is the greatest single piece of

**14**

literature in the world. This statement should prompt the reader to ask what makes the book of Job so great. First of all, this book is about real life. Job is a righteous man, who appears to suffer by the

**15**

hand of Satan most unjustly. Therefore, the myth that life is somehow supposed to be fair is completely destroyed after reading it.

**16**

In addition to the above, in that it teaches about real life, the book prepares the reader for the eventual troubles that will come their way.

**17**

Difficulties in life is the way God helps His children to rely on Him rather than on themselves. The reader should notice that oftentimes suffering doesn't come about because of sin in one's life. Indeed, Job

**18**

is not being punished or condemned. Job is being disciplined by his Heavenly Father.

Also, this book offers a glimpse into the spirit world. No other works of ancient literature gives an insight of the behind-the-scenes struggle

**19**

taking place around men daily. Also, the reader learns that Satan is powerless to do harm to anyone, unless he has permission from Almighty God. So, when troubles surround the soul, the Father is merely trying to get him closer to Him. Therefore, problems in life should offer some encouragement that the LORD knows about every believer and watches them.
